Check out HARC's latest blog entry by Rich Haut!  
**'Awareness Leads to Cooperation'**

### **EFD Sponsors, did you miss the June Sponsors only webinar?**

Contact Rich Haut, Asanga Wijesinghe, Fanxu Meng, Carolyn LaFleur and/or Andra Wilcox for a recap on the latest laboratory and field work addressing emissions, fuel additives, catalysts and the [EFD iBox](#) as well as other projects!

Your EFD Sponsorship includes these and more benefits, even when/if you cannot attend.

**The HARC-EFD Team is here to help you address environmental and societal aspects associated with energy development, from site selection to gas compression.**

Contact us for any information on some of the many other programs/projects [HARC](#) has conducted and/or is work in progress as well as what's coming up.

## **Announcements**

## Save the Date

October 2-3, 2017 - National Academy of Sciences, Engineering, and Medicine Roundtable on Unconventional Hydrocarbon Development:

**Offshore Well Completion and Stimulation Using Hydraulic Fracturing and Other Technologies:  
Responsible Development and Risk Management**

The meeting is free and open to the public.

Registration information [here](#).

[More information](#).

## 2017 IOGCC Chairman's Stewardship Awards

[Nominations due August 3, 2017](#)

National Academies of Sciences, Engineering & Medicine is seeking a Communications/Media Specialist for their Gulf Research Program.  
[Learn more here.](#)

**HARTENERGY** shares May, 2017 article

**'Oil and Water Do Mix'**

by Jennifer Presley, Senior Editor, Drilling Hart Energy

The EFD Team is currently seeking funding/grant opportunities to update the Virtual Rig and Hydraulic Fracturing Site with the newer, more compatible software currently used on the Production and Offshore Sites.

***Please contact Andra Wilcox for more information!***

**DOE's Southwest Combined Heat and Power  
Technical Assistance Partnership  
(SW-CHP-TAP) can provide no-cost qualification screenings to **upstream  
and midstream companies.****

**ROI? New Technologies? Other questions?  
A FREE qualification screening  
can provide quick answers.**

This free screening can help show stakeholders that you're looking at energy efficiency, short and long-term planning, and more.  
While CHP may not be a feasible option for all areas,  
you've taken extra measures to consider such methods.

Information for industries including schools/universities, hospitals, wastewater treatment facilities,  
various industrial facilities and more is also available.

[Check out the various project profiles here.](#)

## **Upcoming Events**

### **[IOGANY Annual Summer Meeting](#)**

July 12-13, 2017 - Clymer, NY

### **[IADC Asset Integrity & Reliability Conference](#)**

August 22-2, 2017 - Houston, TX

### **[IADC Well Control Conference of the Americas](#)**

August 29, 2017 - Galveston, TX

### **[GWPC Annual Forum](#)**

September 27-29, 2017, Boston

## **Save the Dates**

### **[Permian Basin Petroleum Association Members' Luncheon](#)**

September 21, 2017 - Midland, TX

### **[IADC Human Factors Conference](#)**

October 17-18, 2017 - Galveston, TX

**[Call for papers.](#) **Deadline is August 11, 2017.****

### **[SMU Power Plays Conference](#) (**abstracts** due by October 13, 2017)**

January 10-11, 2018

*EFD program provides unbiased science to identify, develop and test new technologies, processes and systems to address environmental aspects associated with oil and gas activities, from well site selection through natural gas compression. Research includes land, air and water issues, as well as public perceptions.. For more information, see: [www.efdsystems.org](http://www.efdsystems.org).*
